Forging Ahead

Pace determines the progress of any Company. The initial speed at which a Company evolves from a blueprint to a brick and mortar enterprise determines the outlook of the Company and the resolve of its employees. Some adopt a slow and steady progress while a few dare to bank on their strengths and accelerate on the road to success.

The confidence to set a higher pace can only stem from a strong belief in intrinsic values that distinguish the trailblazers and this in turn is embedded in the Company's DNA. Perseverance combined with a quest for perfection and in sync with an explosive hunger for growth is the spirit of an achiever. And when you set impossible boundaries that only you can break, excel in every sphere of your realm and boldly attempt what others only dream of, that's when you are truly forging ahead.

About Us

Taking The Lead

TAKE Solutions is a leading international business technology Company, providing innovative, cost-effective and comprehensive solutions for businesses across diverse sectors through its two principal business areas – Life Sciences (LS) and Supply Chain Management (SCM). With intellectual property assets embedded within its technology solutions and with a set of best practices executed by skilled domain and technology professionals, TAKE is constantly looking at opportunities to drive efficiencies for its clients' businesses.

Building The Momentum

TAKE's product suite in the Supply Chain vertical is sold under the umbrella brand 'TAKE Supply Chain', which offers 16 unique products with embedded IP that spans the entire gamut of execution, planning and collaboration.

Solution areas include Demand Driven Supply Chain, Demand Driven Distribution & Fulfillment, Mobile Applications & Auto-ID and Global Trade Management.

In the Life Sciences domain, TAKE's deep understanding of the functional areas of R&D, commercial applications and operations helps it add tremendous value as a partner to business units within several organizations. Its technology capabilities along with a partnership approach with industry leaders and standards organizations like the CDISC, HL7, and ICH allow it to consistently provide the best solutions and services.

TAKE provides life sciences customers a single source for clinical data services, regulatory-compliant technology solutions and safety data systems. TAKE provides solutions delivered for installation or in a hosted environment. TAKE's other offerings include Application Management, Infrastructure Management and Business Technology Solutions centered around Business Intelligence (BI), Portals, Business Process Management (BPM), and Mobility Solutions.

Headquartered in Chennai, TAKE primarily drives its SCM Domain Excellence Centre and Global Delivery Centre from India. The Company has a strong presence in the USA with the Life Sciences Domain Excellence centre located in Princeton, New Jersey. The Company conducts business today with more than 390 customers worldwide.

TAKE is assessed at Level 5 of the Capability Maturity Model Integration (CMMI) & Level 3 of the People Capability Maturity Model (PCMM), Software Engineering Institute, Carnegie Mellon University, USA. TAKE is also a Microsoft Gold Certified Partner, Oracle Partner, Business Objects Gold Partner, Charter Member of the Microsoft BioIT Alliance, and along with its subsidiary Applied Clinical Intelligence (ACI), a Registered CDISC Solution Provider, with recognized industry leadership in Microsoft-based Solutions, Regulated Life Sciences, and Supply Chain Management. This is a sure sign of our potential in the industry that is fast changing the nature of global commerce.

The global recession notwithstanding, the latter half of 2009 saw a steady growth in our Company's operations and with a dynamic growth plan chalked out for the forthcoming year we are in the process of becoming a force to reckon with. This is in tune with the dynamism and inventiveness that TAKE was founded on and with a solid growth pace we are forging ahead.

Events @ TAKE

TAKE Utsah

TAKE Solutions Presented 'TAKE Utsah', An Annual Get-together For Its Employees.

Aimed at providing its employees a rejuvenating break, TAKE Solutions organised its annual corporate celebration, 'TAKE Utsah' in Chennai this year.

Popular for promoting fun and entertainment quotient amongst the employees, TAKE Utsah, has been initiated with an objective of enhancing employee motivation and facilitating the best of work environment. In sync with the theme 'Cinema Night' the employees were dressed as 'actors and actresses' for the gala event. The other highlights of the annual festival included felicitation of employees who have completed five successful years at the Company, team games, shadow play, carnival games, scintillating performances and lavish dinner.

The TAKE Solutions World Corporate Golf Challenge 2010

TAKE Solutions has been the main sponsor for the Indian leg of the World Corporate Golf Challenge for five years now. The World Finals have been held annually since 1994 at the exclusive La Manga Club in Spain apart from one edition each in Jamaica, Mauritius and Kuala Lumpur. India started participating in it since 1999 and TAKE Solutions is associated with the event since the year 2005. This year's event was held in four regions (Kodaikanal, Lonavla, Bangalore and New Delhi) followed by the National finals at Gurgaon and over 1000 corporate golfers participated in the event.

At the World Corporate Golf Challenge (WCGC) World Finals this year, Team India emerged Runners-up. India and Portugal were tied for the 1st place with a total team score of 199 over 36 holes at the two day World Finals. However, Portugal won by a better team handicap. The event saw participation from 22 countries at the prestigious and world famous Oubaai & Fancourt golf courses at Cape Town, South Africa. The Indian team comprised of Manav Sardana & Aman Sawhney from Delhi and Sameet Sanghrajka & Yohann Pedder from Mumbai.

Today, TSWCGC has become the most talked about and sought after event in the Indian corporate circle and this event helps in brand positioning and networking. To read more, please visit www.takesolutionswgcg.com.

Corporate Social Responsibility

Transforming Lives

TAKE Solutions supports 'Give Life' Trust, an NGO which undertakes various initiatives for the welfare of underprivileged children in Tamil Nadu. Give Life was formed in 2007 jointly by the Shriram Foundation and Tamil Maiyam.

This year, as a part of the project, TAKE organized a 'TAKE Solutions Scholarship Distribution Day' where the employees volunteered in distributing uniforms, books, stationery and school fees to 500 children from poor families in and around Tamil Nadu thus making a difference in their lives. TAKE Solutions has been associated with this project for the last three years and will continue to promote this cause in a larger scale.

Working @ TAKE

Resource Augmentation

In alignment with the capabilities necessary to continuously address the growing new challenges, HR has been instrumental in equipping the organization with new resources globally in various domains and specializations including Life Sciences, Data Analytics and Business Intelligence. The Company is seen to be growing healthily in size and is getting geared up to brand TAKE globally as a preferred employer. The organization is enhanced with greater capabilities to take the business to the next level. TAKE has expanded its boundaries to accommodate some of its new growth spurt in its SEZ location at Perungalatur, Chennai.

Value Addition To Human Capital

To drive value and optimize Company performance, Human Capital is an asset to be leveraged. In acknowledging the same, recruitment and retention prove to be critical to sustain the growth and propel the Company to greater heights. TAKE has been challenged with retaining its critical resources and the Company has handled the same successfully this year.

Building Blocks To Learning

TAKE believes in promoting a continuous learning environment for its employees. To accomplish this, a portal on Learning Management System was introduced to provide the right opportunity for its employees to pace their learning and invest their time in self development.

In addition, a Centre of Excellence (COE) lab for Supply Chain Management was launched at the TAKE's headquarters. There is also a library of information including demonstration of TAKE's products.

Letter to Shareholders

Dear Shareholders,

When we wrote to you last year, circumstances were entirely different and the global economy was experiencing a severe turbulence. While your company was not immune to the impact and not isolated from the rest of the world, we traversed the rough seas with a degree of calmness and sincerely believed in the power of focus. A clear focus on our core values, our expertise and value proposition to the global marketplace, and a belief in our employees and associates allowed us to distinguish and differentiate ourselves very clearly amidst our competition. Battening down the hatches and weathering the storm, we stocked upon essential ingredients of liquidity and cash on hand, and rationalized our cost structures, with strong commitment towards our core competencies and our customers. The move has paid off.

When The Going Gets Tough, The Tough Gets Going

Our first priority was to bring back the revenue to the levels that we enjoyed earlier. We are extremely happy to share that we have comfortably surpassed the previous highs of revenue accomplishment and FY '10 revenues are the best ever in the company's history. Meeting the market challenges with a can-do spirit and must-do sense of responsibility, TAKEsters around the globe stepped up and delivered. However, product pricing pressures and subdued license revenues along with an increased SG&A spend negatively impacted the profitability during the year. Overall, while the margins were under pressure, our ultimate goal of top line growth was accomplished and we share the following financial results for FY '10 with you all:

- Consolidated revenue of INR 3,664 million (USD 76.7 million), up 8% compared to last fiscal year
- Earnings before Interest, Tax, Depreciation, and Amortization reduced 15% to INR 667 million (USD 14.0 million)
- Net profits declined 39% to INR 324 million (USD 6.8 million)
- Cash and equivalents of INR 977 million (USD 21.7 million)
- EPS (annualized) of INR 2.70

You will be pleased to note that the Board of Directors recommended a final dividend of INR 0.20 per share for the fiscal year 2010.

While the measures adopted during the tough times paid us all rich dividends, as economic conditions improve ever so slowly, you can be rest assured that your company is well poised to take advantage for an even stronger performance. Exhibiting tremendous resilience and riding on superior endurance and stamina, the momentum we currently witness is exciting, to say the very least.

A Decade Of Successful Operations And Forging Ahead

We have titled this year's annual report "Forging ahead". Indeed we are forging ahead. Looking back, we have done all the right things that the circumstances demanded and are we glad. Riding on the strengths of our core competencies of domain expertise in supply chain management and life sciences, our IP based solutions, and a basket of well-differentiated products and services, we enter the new fiscal year with great optimism and with robust confidence of generating solid value for you, our shareholders.

With a focused strategy of leveraging our relationships with the large pool of satisfied customers of TAKE, and to capture the large opportunity of a globally integrating world, we have been strategizing with amazing intensity. You will be pleased to note that your organization has been steadily investing in expanding the management bandwidth, securing the much needed large visionary think-tanks and professionals with the requisite skill and experience in shouldering large operations. We have added a significant number of client relationship managers, practice leads, and practice heads who cumulatively bring a wealth of experience to the firm. As the economies recover and growth returns at the turn of the decade, we have started to see the positive transformation at TAKE that will benefit us all.

Born into a decade of massive global transformation, a decade that began with the dot-com bust and that hurriedly moved through major shifts that have reshaped our industry and the world economy, we have been compelled to be agile, to sense early and to respond fast.

Continued Focus On IP And Domain Expertise

Through all of this, the one thing that has stayed consistent and that has been the DNA of your Company is the firm belief that domain expertise is core to our value proposition to the global businesses. As the planet was becoming smarter and everything was getting interconnected at breakneck speeds, we consciously made a bold decision to be different from day one and we have stuck to our core beliefs.

A decision that we believe has paid off and that has allowed us to amass substantial industry expertise, with the assistance of both organic and inorganic growth.

We have been and will continue to enable business efficiencies for our vast global customer base by deploying our IP based solutions and leveraging our basket of well-differentiated products and services and will continue to invest in unique solutions to solve business problems. Our message especially resonates well with the mid-market customers and prospects, where there is a clear alignment and a greater sense of comfort that we are able to lend. Our investments in the current fiscal year are clearly focused on high-potential opportunities for your Company and we are always on the lookout for geographical expansion and if relevant, domain expansion through acquisitions.

We are proud of the 800+ TAKEsters around the globe who have been with us through this transformational journey and who have brought us to this point. We would like to thank our Chairman, the entire Board of Directors for their valuable guidance through the course of the year, and our advisory board, for their valuable inputs and for enabling us to stay on course. Last, but not the least, we express our gratitude to you, our shareholders, for your infallible and unwavering support. We hope that you are pleased with the progress your Company has made through the course of the year, and are equally excited about the prospects that are in store for us as we forge ahead and look into the future.

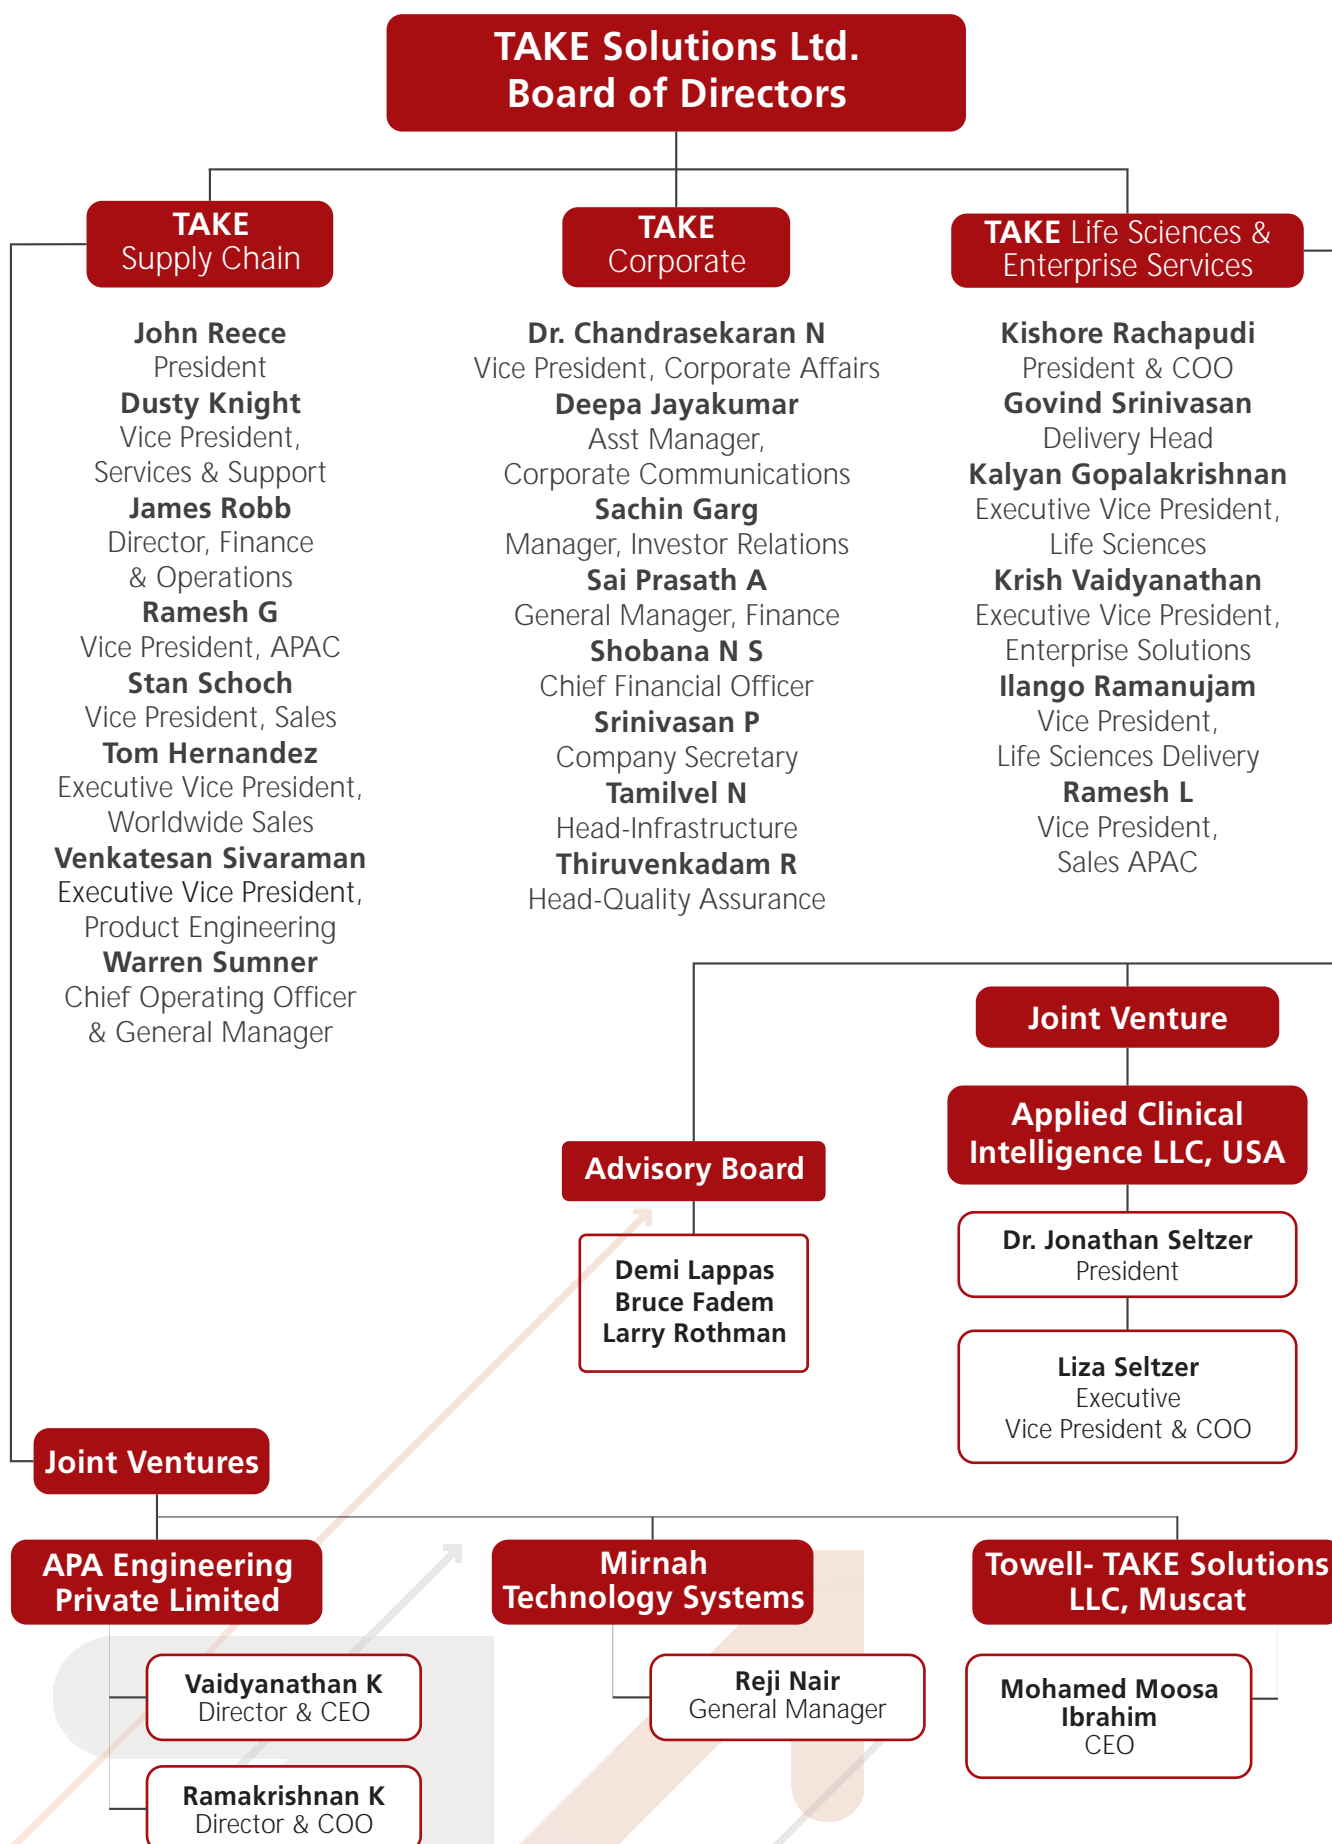

Thank you.

Management's Discussion & Analysis

This Management's Discussion and Analysis contains certain "forward-looking statements" concerning our future operations, prospects, strategies, financial condition, future economic performance (including growth and earnings), demand for our products and services and other statements of our plans, beliefs, expectations etc. These forward looking statements generally can be identified by words or phrases such as "aim", "anticipate", "believe", "target", "expect", "estimate", "intend", "objective", "plan", "project", "shall", "will", "will continue", "will pursue", "can", "could", "may", "should", "would" or other words or phrases of similar import. Similarly, statements that describe our objectives, plans or goals are also forward-looking. The forward-looking statements we make are not guarantees of future performance and are subject to various assumptions, risks and other factors that could cause actual results to differ materially from those suggested by these forward-looking statements. These factors include, among others, those set forth below. Forward-looking statements that we make or that are made by others on our behalf are based on knowledge of our business and the environment in which we operate. We cannot assure you that the results or developments anticipated by us will be realized or, even if substantially realized, that they would have the expected consequences to or effects on us or on our business or operations.

MARKET OVERVIEW

LOOKING BACK

During the last financial year the global economy stabilized after witnessing one of the century's worst economic crisis. Although the economy stabilized in 2009, the demand for IT products and services remained subdued as the limited visibility restrained clients from capital expenditure. Today when we look back, we feel proud of ourselves for successfully navigating a challenging economic environment and emerging out as a much stronger Company due to our commitment and focus on elevating TAKE Solutions to a new trajectory of growth. During the year, we revamped the business model to suit customer expectations and included new approaches favoured by customers. Furthermore, we strengthened ourselves with a broader management bandwidth, with highly experienced professionals on board.

After witnessing a significant decline in top-line in the last quarter of FY 2009 on the back of a highly challenging global economic environment, the Company's first priority was to quickly bring back the quarterly revenue to the levels that we enjoyed earlier. We are extremely happy to share that we have not only matched, but surpassed the previous highs. Furthermore, the FY 2010 revenue was also the best ever in the Company's history. It was a result of the initiatives undertaken by the Company and the hard work of its employees, who have been with the Company during

the tough period. Although there was a negative impact on profitability in the first half of the year due to an increase in SG&A expenses, pricing pressure and subdued license revenues, the situation improved in the second half of the year resulting in improved profitability over the first half of FY 2010.

STEPPING FORWARD

SUPPLY CHAIN MANAGEMENT

The economic crisis had an impact on the buying behaviour of our SCM clients. The capital expenditures were tightly governed and the clients were opting for operating expenditure models. As a result, there was a negative impact on our SCM license revenue and more demand for services and pay-as-you-go models. Our focus was to work closely with our customers and help them overcome the challenges during those difficult times. In this process we have developed deep partnerships with our major clients. We increased our investments on sales and marketing to increase market penetration and geographic presence. These efforts ensured that there was an overall growth over previous year despite the slowdown and shift in the buying pattern.

New Offerings

TAKE has developed new offerings and increased focus in other geographies. In January 2010, TAKE launched its new Software-as-a-Service (SaaS) platform OneSCM, which is witnessing good client traction. With OneSCM, customers can optimize the management of supply chain across organizational boundaries and even evolve new business models by collaborating in real time with customers, partners, internal business units and suppliers. The platform requires no upfront hardware or software investments, leading to significantly faster ROI for the clients.

During the last year, the Company ventured into Global Trade Management. The GTM segment of SCM is witnessing high growth primarily due to economic globalization, new regulations, low cost country sourcing and increasing global trade volumes. According to the Global Trade Management Worldwide Outlook report in 2008 by ARC Advisory Group, the global trade support market is expected to grow from more than USD 600 Mn in 2009 to more than USD 800 Mn by 2012, a Compounded Annual Growth Rate (CAGR) of 10 %. With the addition of these 2 product sets the number of products in the TAKE Supply Chain portfolio has increased to 18.

In its focus to deliver products that improve operational efficiencies and user experiences, TAKE Supply Chain released Xtended Process Control (X.PC) 5.7d, an upgrade to the Company's software that accelerates and streamlines supplier collaboration and extends lean processes by connecting manufacturers and distributors

Management's Discussion & Analysis

with supply chain partners worldwide to procure goods and services.

Furthermore, we launched the Gemini 11.5.10f, an upgrade offering significant functionality enhancements and demonstrating TAKE's commitment to installed base customers using Oracle 11i. Gemini for Oracle™ Process Manufacturing (OPM) and Gemini for Oracle Discrete Manufacturing are used by hundreds of manufacturers and distributors worldwide such as Alcoa, Welch's and Canon to improve efficiencies and increase access to accurate, real-time receiving, shipping, manufacturing and inventory information.

Optimistic Demand Scenario

Although USA, our largest market stabilized during the last year, there was a lag in the demand to pick up and attain reasonable levels. The recent AMR survey among 305 leading global companies indicates that 56% of them are going to increase their spend on Supply Chain technologies and 35% indicate that the industry spend is going to remain the same. We are optimistic on the demand scenario in the USA in the near term.

Growth Outside US

The USA, which is TAKE's largest market, was worst hit by the economic turmoil, which the world experienced in 2008 and 2009. To mitigate the subdued performance in the USA, TAKE Supply Chain increased focus on its second largest market, the Middle East Asia, which was growing at a healthy rate. The strategy paid-off and the Company witnessed a significant growth from the region in FY 2010 including its first USD 1 Mn deal from this region. We continue to see a positive demand environment in this region.

LIFE SCIENCES

The Life Sciences vertical witnessed a minimal impact due to the economic crisis and this segment continued to strengthen its position in the market. Due to constant changes in the global regulatory requirements and demand for domain experts, the segment continued to stand out in the market. We realigned the segment's corporate structure to increase market presence and add value to the clients. Our customers and prospects in this segment are increasingly desirous of partnering with functional experts like TAKE and are steering clear from systems integrators with a focus just on IT. As recognition of domain expertise, TAKE was engaged by existing and new big pharmaceutical clients to initiate multiple pilot projects and also multiple Master Service Agreements with annuity deal sizes in the range of USD 5 Mn.

Expanded Offerings

With a strong desire to take advantage of the volume of business available globally in this segment and with an eye towards increasing its market share, TAKE Life Sciences expanded its offerings to cover additional areas

of clinical, regulatory and safety within R&D. Leveraging its expertise in the underlying business processes and its sound capabilities in analytics, the portfolio of offerings now support the commercial side of the sales & marketing functions of the Life Sciences companies.

Customers and prospects alike are clearly looking for partners with functional and domain expertise to help support their businesses and TAKE has continued to provide these differentiated attributes. Our ability to not just implement and support business applications, both on-premise as well as in a hosted environment, but to also provide the adjacent business process support services has elevated our brand within the marketplace.

Strengthening of the Global Teams

With an eye towards expanding rapidly on a global basis and supporting our customer base with additional product and service offerings, the global team has been strengthened manifold with the right talent and with the relevant expertise.

Forging Strategic and Meaningful Partnerships

The Company entered into strategic partnerships with Oracle, Liquent, Cegedim-Dendrite, HP and QlikTech. The objectives of these partnerships are twofold: one is to continue building the appropriate domain rich solution set for the industry and the other is a go-to-market strategy with expanded offerings. Our ability to deliver consistent quality from our delivery facilities in Chennai, India is of significant appeal to our partners.

Life Sciences Advisory Board Instituted

With our unabated and single minded focus on enhancing our domain expertise and adding value to our products and services, we instituted an Advisory Board for our Life Sciences business. The members of the board are leading industry professionals and past CIOs of major global pharmaceutical companies.

OTHER UPDATES

Divestment

The Company concluded the sale of its entire 51% stake in the Malaysian subsidiary, TAKE United Sdn Bhd. for INR 48.8 Mn. TAKE's investment in this subsidiary was INR 26.5 Mn. The Malaysian subsidiary contributed 2.3% to TAKE'S FY 2009 consolidated revenue. TAKE Solutions will continue offering its services to the Malaysian customers through the same entity in a 'distributor' arrangement and also through other channels.

Intellectual Property (IP) acquisitions

During FY 2010, we acquired IP of two product lines from two global supply chain management companies, PSI Software and EntComm. These asset purchases enhanced TAKE's supply chain management product

Management's Discussion & Analysis

offerings and also expanded geographical reach. The purchases were strategic in nature and augmented TAKE's organic growth.

Infrastructure

- We inaugurated the first phase of our new SEZ facility at Shriram - The Gateway, Chennai with an initial capacity of 600 people, which is expected to be operational during the second quarter of FY 2011. We also have provision for expanding operations by another 500 people in the same facility.
- We were conferred the rights to 5 acres of land at the ELCOT - IT/ITES SEZ Trichy, Tamil Nadu. The Trichy facility will enable the Company to further leverage the talent base available in Tamil Nadu.

Credit Rating

TAKE Solutions was assigned 'CARE A+' [Single A Plus] rating for Long Term and PR1+ for Short Term borrowings by Credit Analysis and Research Ltd (CARE). These ratings are applicable for facilities having tenure of more than one year. The CARE A+ rating has been awarded to TAKE Solutions for its long term facilities which denotes adequate safety for timely servicing of debt obligations

and carry low credit risk. The PR1+ rating for its short term facility which denotes strong capacity for timely payment of short-term debt obligations, carries low credit risk and is the best rating for such borrowings.

RESULTS OF OPERATIONS (CONSOLIDATED)

TAKE's current year operational results reflect a growth of 5% in operating revenue, showing a comeback from the impact of global slowdown, by various measures including shifting of business focus to the more resilient Asia Pacific (AsiaPac) region. The Group's financial strength and ability to adapt to the current market and economic conditions are dependent in part on the generation of cash flows, effective management of working capital, as well as the growth of the business.

Our revenues have grown at a Compounded Annual Growth Rate (CAGR) of 67% over the last 5 years, while EBITDA has grown 65% during the same period. This is attributable to a focus on operating efficiencies while straddling a shift in the business model to accommodate customer transition from license purchases to services contracting.

The total revenues for the year FY 2010 is INR 3,664 Mn representing an increase of 8% over INR 3,403Mn in FY 2009.

Management's Discussion & Analysis

REVENUE ANALYSIS

Revenue by Vertical

The financial year ended March 31, 2010 saw revenues from Supply Chain Management grow by INR 323 Mn from INR 1,627 Mn to INR 1,950 Mn, representing a 20% growth year on year. This is due to significant growth witnessed in the Middle East Asia region, which offset the decline in revenues from the USA region. This vertical has grown at a CAGR of 52% over the last 5 years. Life Sciences revenues have grown at a CAGR of 67% over the last 4 years in spite of a 4% drop in revenue during the current year. The Life Sciences segment, which derives majority of its revenue from the USA region witnessed decline during FY 2010 due to lack of demand from the small and mid pharmaceutical companies in the region. These companies were primarily funded by Venture Capital funds and due to the credit crisis in 2009, the funding for these pharmaceutical companies dried up leading to subdued demand.

Others	212	219	-3
Total Revenues	3,664	3,403	8

Revenue by Geography

Asia Pacific region (AsiaPac) revenues have increased by 54% compared to the last year and had a CAGR of 37% over the last 5 year period. The revenue increase can be attributed to expansion of market and inroads made in the mobility solutions segment. USA registered a CAGR of 310% for the same period but showed an 8% decline over the last year.

Particulars	FY 2010	FY 2009	% Change
AsiaPac	1,354	879	54
USA	2,310	2,524	-8
Total	3,664	3,403	8

CUSTOMER CONCENTRATION:

Top 10 customers have yielded 27% of our revenues in FY 2010 compared to 25% in FY 2009 and Top 5 customers yielded 18% of our revenues in FY 2010

compared to 17% in FY 2009. The Company has maintained its share of revenue from the top 5 while increasing its share from the next tier and reclaiming customer share enjoyed in FY 2009 and earlier.

COST ANALYSIS

Cost of Sales

Cost of Sales primarily comprises of salary and other employee compensation costs and other direct expenses necessary for the delivery of contracted services. Our cost of sales has increased by 10% to INR 2,354 Mn from INR 2,145 Mn in FY 2009. As a percentage of Revenue, there is a 1% increase in cost, mainly attributable to the skew in favour of service revenue compared to the previous period.

(Figs in INR Mn)

Cost of Sales as a percentage of revenue				
Particulars	FY 2010		FY 2009	
	Amount	% of Revenue	Amount	% of Revenue
Employee Costs	1,416	39	1,107	33
Other Direct Costs	938	26	1,038	31
TOTAL DIRECT COST	2,354	64	2,145	63

Amortization of capitalized software costs	180	5	135	4
Depreciation	43	1	34	1
Finance Expenses	39	1	18	1
TOTAL COST	3,259	89	2,808	83

Selling, General and Administrative Expenses

Selling, General and Administration (SG&A) expenses have increased by 35%. As a percentage of revenue, SG&A expenses have increased from 14% in FY 2009 to 18% in FY 2010. For the year, the Company's first priority was to enhance the top-line, which was negatively impacted by the global crisis in the last quarter of FY 2009. In order to achieve this, the Company adopted aggressive go-to-market strategies, which resulted in higher SG&A expense in FY 2010.

Management's Discussion & Analysis

Depreciation and Amortization

During the year, we provided for INR 43 Mn towards depreciation and INR 180 Mn towards amortization representing 1% and 5% of the total revenue respectively. Depreciation and amortization increased by 26% & 33% respectively, from the previous year. This increase was due to amortization of product development expenses across a fixed time span which was directly proportionate to capitalization in earlier years.

Fixed assets are depreciated over a time period prescribed by local statutes wherever applicable, or over estimated useful life, on a straight line basis.

Taxation

TAKE benefits from tax holidays offered by the Government of India to software products and IT service exporters from specially designated technology parks and export zones.

The total taxation for FY 2010 stood at INR 42 Mn against INR 55 Mn for FY 2009. However, effective taxation rate rose by 1% during the year.

Net Profit for the year

Net Profit of INR 324 Mn was registered by the Company in FY 2010 compared to INR 529 Mn in FY 2009. As a percentage of total income the net profit was 9% for FY 2010 and 15% for FY 2009. The profitability was negatively impacted due to pricing pressure in the Supply Chain Management segment, lower license revenue and higher SG&A costs. The Company has responded to the challenges posed by the global slowdown by a series of measures which have begun to yield positive results.

Dividend

The Board of Directors has recommended a final dividend of 20% (INR 0.20 per share) for equity shares subject to the approval of the shareholders at the Annual General Meeting scheduled on September 02, 2010.

FOREIGN CURRENCY TRANSACTIONS

The Company has a substantial part of its revenue being generated in USA. The exchange rate between the Indian Rupee and the U.S. Dollar has changed substantially in recent years and may continue to fluctuate significantly in the future. The value of our assets and liabilities are impacted by fluctuations in the exchange rate between the Indian Rupee and the U.S. Dollar and other foreign currencies. However as regards operational income and expenses, the Company has a significant natural hedge for risks associated with foreign currency fluctuations since 80% of its revenues and 84% of cash expenses are incurred in foreign currencies.

During the year the Company redeemed 4,910,850 5% Non-Cumulative Preference Shares of INR10/- each fully paid up.

Reserves and Surplus

Reserves and Surplus of the Company stood nearly flat at INR 3,538 Mn at the end of fiscal year 2010, compared to the previous year. The profits made during the year are not reflected in the balance of reserves mainly on account of the strengthening of the Rupee against USD during the year from INR 52 at the close of FY 2009 to INR 45 at the close of FY 2010. The US geography has contributed to 63% of our revenues and 64% of our profits this year.

Management's Discussion & Analysis

Out of the profits in fiscal 2010, an amount of INR 9 Mn has been transferred to General Reserve and INR 49 Mn to Preference Share Redemption Reserve, as required by the Companies Act.

During the year the Company has proposed dividend at 20% for Equity Shares and 5% for Preference Shares.

Employee Stock Option Scheme:

On December 10, 2007 the Company established the Employees Stock Option Scheme - 2007 (ESOS - 2007). Under the scheme, the Company is authorized to issue up to 2,400,000 equity settled options of Re 1/- each to employees (including employees of the subsidiary company). A Remuneration & Compensation Committee has been constituted by the Board of Directors of the Company to administer the scheme.

Loans

Loans at the end of FY 2010 aggregated to INR 344 Mn compared to INR 238 Mn at the end of FY 2009. This is predominantly due to additional bank facilities availed during the year, secured against the Company's book debts and fixed assets.

Fixed Assets

The Gross Block of fixed assets as at March 31, 2010 has increased to INR 458 Mn from INR 387 Mn as at March 31, 2009. The net additions during the year to the Gross block are INR 71 Mn. The significant additions during the year were to computer equipments, software and licenses. The entire capital expenditure was funded through internal revenue generation.

Product Development Expenses Capitalized

Product development efforts undertaken by the Company, net of amortization stood at INR 713 Mn at the end of FY 2010. Amount amortized during the year has increased by INR 45 Mn to INR 180 Mn, constituting 84% of the product development costs spent.

Goodwill on Consolidation

The goodwill on consolidation as on March 31, 2010 was INR 1,735 Mn, a decrease of INR 132 Mn from the previous year is mainly on account of the fluctuations in the currency conversion rates adopted as per the principles of consolidation.

Investments

The amount of Investments stood at INR 502 Mn as on 31st March 2010 as against INR 565 Mn as on 31st March 2009, the decrease being utilized for regular operations.

Current Assets, Loans and Advances

The current assets, loans and advances increased from INR 1,909 Mn as at 31st March 2009 to INR 2,023 Mn as at 31st March 2010. In terms of number of days' sales, current assets at 202 days of FY 2010 sales is marginally lower than 205 days sales for the previous year.

Sundry debtors remained stable at 65 days sales for both years, at INR 648 Mn as at 31st March 2010 against INR 608 Mn as at 31st March 2009.

The cash & bank balances were at INR 476 Mn as on March 31, 2010 compared to INR 537 Mn as on March 31, 2009. The Company has maintained 47 days sales available as cash in hand and with banks, as against 58 days at the end of the previous year.

TAKE and all its subsidiaries have their own cash management policies, credit management and debt collection processes. Each business unit invests cash surpluses generated during the course of operations in sweep investments which are typically time deposits with reputed and reliable banks.

Current Liabilities and Provisions

The total amount of current liabilities & provisions has decreased from INR 1,015 Mn as at 31st March 2009 to INR 899 Mn as at 31st March 2010. A major portion of this decrease (nearly INR 100 Mn) is attributed to the reduction in cash hedging reserve created due to the fluctuations in currency conversion rates.

Auditors' Report

AUDITORS' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS TO THE BOARD OF DIRECTORS OF TAKE SOLUTIONS LIMITED

1. We have audited the attached consolidated Balance Sheet of TAKE Solutions Limited ('the Company'), and its subsidiaries (collectively referred as the 'TAKE Group') as at March 31, 2010, the consolidated Profit and Loss Account and the consolidated Cash Flow Statement for the year ended on that date, annexed thereto. These consolidated financial statements are the responsibility of the Company's management and have been prepared by the management on the basis of separate financial statements and other financial information regarding components. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.
2. We conducted our audit in accordance with the Auditing Standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. We did not audit the financial statements of all the subsidiaries, whose financial statements reflect total assets of Rs. 54000 Lacs as at March 31, 2010, total revenue of Rs. 32087 Lacs and net income after tax of Rs. 2041 Lacs for the year ended on that date. These financial statements and other information have been audited by other auditors, whose reports have been furnished to us and our opinion is based solely on the reports of other auditors.
4. We report that the Consolidated Financial Statements have been prepared by the company's management in accordance with the requirements of Accounting Standard (AS) 21, Consolidated Financial Statements, prescribed by the Companies (Accounting Standards) Rules, 2006.
5. Subject to the matter referred to in paragraph 3 above, based on our audit and on consideration of the reports of the other auditors on separate financial statements and on other financial information of the components and to the best of our information and according to the explanations given to us, we are of the opinion that the attached Consolidated Financial Statements give a true and fair view in conformity with the accounting principles generally accepted in India:
 - (i) in the case of the Consolidated Balance Sheet, of the State of affairs of the TAKE Group as at 31st March, 2010;
 - (ii) in the case of the Consolidated Profit and Loss Account, of the Profit of the TAKE Group for the year ended on that date; and
 - (iii) in the case of the Consolidated Cash Flow Statement, of the cash flows of the TAKE Group for the year ended on that date.

Notes to Consolidated Accounts for the year ended 31st March, 2010

SCHEDULE 12 :

1. STATEMENT ON SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements of TAKE Solutions Limited and its subsidiaries (The Group) are prepared in accordance with the Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2006, the provisions of the Companies Act, 1956 and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied by the Company and are consistent with those used during the previous year.

The significant accounting policies adopted by the Group are detailed below:

1.1. Principles of Consolidation

The financial statements of the subsidiary companies used for consolidation are drawn up to the same reporting date as of the company.

The consolidated financial statements have been prepared on the following basis:

- a) The financial statements of the company and its subsidiary companies have been combined on a line-by-line basis by adding together like items of assets, liabilities, income and expenses. All material inter company transactions, balances and unrealized surpluses and deficits on transactions between group companies are eliminated. Consistency in adoption of accounting policies among all group companies is ensured to the extent practicable. Separate disclosure is made for minority interests.
- b) The excess of cost to the company of its investments in subsidiary companies over its share of equity of the subsidiary companies at the dates on which the investments in subsidiary companies are made, is recognized as 'Goodwill' being an asset in the consolidated financial statements. Alternatively, where the share of equity in the subsidiary companies as on the date of investment, is in excess of the cost of investment of the company, it is recognized as 'Capital Reserve' in the consolidated financial statements.
- c) Minority interest in the net assets of consolidated subsidiaries consist of the

amount of equity attributable to the minority shareholders at the dates on which investments are made by the company in the subsidiary companies and further movements in their share in the equity, subsequent to the dates of investment.

- d) Exchange difference resulting from the difference due to translation of foreign currency assets and liabilities in subsidiaries is disclosed as foreign currency translation reserve.

1.2. Use of Estimates

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on management's best knowledge of current events and actions that the Company may undertake in future, actual results ultimately may differ from the estimates. Any revision to accounting estimates is recognised prospectively in future periods.

1.3. Significant Accounting Policies

The significant accounting policies pertaining to the principal business segments of the company are set out below and the other policies have been detailed in the standalone financial statements.

1.4. Revenue Recognition

a) Software & Consultancy Revenue

The Contracts between the Company and its customers are either time and material contracts or fixed price contracts.

- (i) Revenue from fixed-price contracts is recognised according to the milestones achieved as specified in the contracts on the Proportionate Completion Method based on the work completed. Any anticipated losses expected upon the contract completion are recognized immediately. Changes in job performance, conditions and estimated profitability may result in revisions and corresponding revenues and costs are recognized in the year in which such changes are identified.
- (ii) In respect of time and material contract, revenue is recognized in the year in which the services are provided. Unbilled revenue represents cost and earnings in excess of billings while deferred revenue represents the billing in excess of cost and earnings.

Notes to Consolidated Accounts for the year ended 31st March, 2010

- (iii) Revenue from product sale and licensing arrangements are recognized on delivery and installation.

b) Sale of IT Infrastructure and Support Services

Income from sale of IT Infrastructure is recognized upon completion of sale. Income from support services is recognized upon rendering of the services. Income from maintenance contracts relating to the year is recognized when the contracts are entered into on a time proportionate basis.

c) Revenue from E- Business Solutions

Revenue is recognized when invoices are raised and are accounted net of trade discounts, rebates, taxes and duties.

d) Other Incomes

- (i) Interest income is recognized using time proportion method based on rates implicit in the transaction.
- (ii) Dividend income is recognized when the company's right to receive dividend is established.
- (iii) Miscellaneous income is recognized on accrual basis.

1.5. Software Product Development Cost

Internally developed software products are valued based on costs directly attributable to the development of such software and allocated indirect cost and they are capitalised individually once their technical feasibility is established in accordance with the requirements of Accounting Standard 26, 'Intangible Asset'.

Expenses incurred during research phase till the establishment of commercial feasibility is charged off to Profit and Loss Account.

Products capitalised are being amortized over a period of three to five years from the launch date and the unamortised product costs as at Balance Sheet date are shown under Assets separately.

1.6. Foreign Currency Transactions / Translation Reserve

- i) All monetary items denominated in foreign currency are reflected at the closing exchange rates prevailing on the Balance Sheet date; the resultant exchange differences are recognized in the profit and

loss account. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

- ii) Income and Expenditure items involving foreign exchange are translated at the exchange rate prevailing on the dates of transaction.
- iii) Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Profit and Loss Account for the year.
- iv) For the purposes of consolidation, the operations of overseas subsidiaries are considered as non-integral in nature and accordingly the assets and liabilities of non-Indian subsidiaries are translated at the period-end exchange rate and income and expenditure items are translated at the average rates during the period. The resultant translation adjustment is reflected as a separate component of Shareholders' funds as 'Foreign currency translation reserve'. Upon dissolution/ disposal of non-Indian subsidiary, the balance in Foreign currency translation reserve in relation to that subsidiary will be transferred to the Profit and Loss Account.

1.7. Depreciation

Depreciation is provided on a pro-rata basis on the Straight Line Method (SLM) over the estimated useful lives of the assets determined as follows:

Computers and purchased software	2-7 years
Furnitures, Fixtures and Equipments	1-20 years
Automobiles	3-10 years
Leasehold improvements	Period of Lease

One of the step subsidiaries namely, RPC Power India Private Limited has been following Written Down Value (WDV) method for claiming depreciation till the date of acquiring control over the composition of the Board of Directors.

In complying with the accounting policy of the group, the method of claiming depreciation has been changed to Straight Line Method (SLM) and consequentially, the excess depreciation to the extent of Rs.257 (in 000's)

Notes to Consolidated Accounts for the year ended 31st March, 2010

has been adjusted in the Profit and Loss appropriation statement of the group.

1.8. Taxation

Tax expenses comprising of both current tax and deferred tax are included in determining the net results for the period.

Deferred tax reflects the effect of timing differences between the assets and liabilities recognized for financial reporting purposes and

the amounts that are recognized for current tax purposes. As a matter of prudence deferred tax assets are recognised and carried forward only to the extent, there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Current tax is determined based on the provisions of the Income Tax Act of the respective countries.

1.9. Subsidiary Company Particulars

Name of the Subsidiary	Proportion of ownership interest as at March 31, 2010	Proportion of ownership interest as at March 31, 2009	Country of incorporation

The loss on disposal of the investment of the said subsidiary to the extent of Rs. 16.48 Lakhs has been recognised in the consolidated financial statements.

On 13th November 2009, a wholly owned Limited Liability Partnership "TAKE Solutions Global LLP" was incorporated by the company directly and through one of its subsidiaries.

During the year, the Company's subsidiary in the Middle East, Towell TAKE Investments LLC through one of its subsidiaries TAKE Solutions MEA Limited, has acquired 100% Share Capital of Mirnah Technology Systems Ltd, a company based out of Saudi Arabia.

1.10. Segment Reporting

The company has identified business segments as its primary segment and geographic segments as its secondary segment.

The business segments of the company are Software Products & Consultancy Services, E – Business Solutions and Others. Geographic segments of the Company are Asia Pacific Region and United States of America.

Revenues and Expenses that are directly identifiable with the Segments have been disclosed accordingly. Certain Income and Expenses which are not specifically allocable to individual segments have been disclosed as "Unallocated Corporate Income" and "Unallocated Corporate Expenses" respectively.

The assets of the company are used interchangeably between segments, and the management believes that it is currently not practical to provide segment disclosures relating to total assets and liabilities since a meaningful segregation is not possible.

Out of the 2,400,000 equity shares so far allotted to the trust, no shares have been transferred to employees upto 31st March 2010. Accordingly, the Company has reduced the Share Capital by the amount of face value of

the equity shares issued to the Trust but not transferred to employees and Share Premium by the amount of Share Premium on such shares. During the year, the company redeemed 4,910,850, 5% Non-cumulative redeemable preference shares at par. The Company has appropriated a sum equal to the nominal value of the shares redeemed to Capital Redemption Reserve.

2.3. Earnings Per Share

Basic Earnings Per Share and Diluted Earnings Per Share are calculated by dividing the Net Profit After Tax for the year attributable to the Equity Shareholders by the Weighted Average number of Equity Shares outstanding during the year. 2.4. Provisions, Contingent Liabilities & Contingent Assets

A provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities: (Rs. In '000s)

- a) Guarantees given by the related party as at 31.03.2010 – Rs.668 (Rs.1,744)
- b) Outstanding Bank Guarantee as at 31.03.2010 is Rs.14,000 (Rs. Nil)
- c) On May 23, 2008 the company has received an order for the assessment year 2003-04 from Income Tax Appellate Tribunal (ITAT) disallowing the software product expenses claimed by the company as revenue expenditure and instead allowing the same as a capital expenditure with consequential depreciation and thereby reducing the benefit of carrying forward of losses by Rs. 159.14 lacs to the subsequent assessment years. However, no demand has been raised for the said assessment year. The company has filed an appeal with the Honorable High Court of Tamil Nadu against the order of ITAT. The management believes that the ultimate outcome of the proceeding will not have a material adverse effect on the company's financial position and results of operation and hence, no adjustment has been made to the financial statements for the year ended March 31, 2010.
- d) Demand from Income tax authorities for payment of additional tax of Rs. 99.58 lacs (net of amount paid to statutory authorities to the extent of Rs. 80.81 lacs) has been received upon completion of their tax review for the assessment year 2006-07. Also, Demand for payment of additional tax of Rs. 179.18 lacs has been received upon completion of their tax review for the assessment year 2007-08. The tax demand is mainly on account of disallowance of software product development expenses claimed by the company as revenue expenditure and instead allowing the same as a capital expenditure with consequential depreciation. The matter is pending before the

Commissioner of Income tax (Appeals), Chennai. The company is contesting the demand and the management including its tax advisors believe that its position is likely be upheld in the appellate process. No tax expense has been accrued in the financial statements for the tax demand raised. The management believes that the ultimate outcome of the proceeding will not have a material adverse effect on the company's financial position and results of operation.

- e) One of the subsidiaries, APA Engineering Private Limited, has received a demand from Income Tax authorities for payment of Tax to the extent of Rs. 17.32 (net of amount paid to statutory authorities to the extent of Rs. 16.18 lacs) for the Assessment Year 2006-07. The demand is on account of disallowance of claim under section 10A of the Income Tax Act, 1961. The said company filed an appeal with the Appellate Authorities and is hopeful of succeeding the same.

2.5 Financial Instruments: Recognition and Measurement

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. The company designates this hedging instrument as "cash flow hedge" applying the recognition and measurement principles set out in Accounting Standard 30.

Hedging instrument is initially measured at fair value and is re-measured at subsequent reporting dates. Changes in the fair value of this derivative that is designated as an effective hedge of future cash flows is recognized directly in shareholders' funds as Hedging Reserve and reclassified into Profit & Loss Account upon the occurrence of hedged transactions. The ineffective portion is recognized immediately in profit and loss account as and when they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognized in shareholders' funds is transferred to profit and loss account for the period. The Loss transferred to profit and Loss Account for the year ended March 31, 2010 is Rs.26,254 (Rs. 29,033) (Rs. in'000s)

Notes to Consolidated Accounts for the year ended 31st March, 2010

- 2.6** Amount payable to the erstwhile Share Holders of the acquired subsidiaries to the tune of Rs. 64,514 (Rs. 78,261) (Rs. in '000s) is shown under Unsecured Loans.
- 2.7** Comparative Figures: Previous year's figures have been regrouped / restated, wherever necessary to make them comparable to those of current year.
- 2.8** The Company has raised External Commercial Borrowings from Citi Bank N.A to the extent of US \$ 2,583,631 and DBS Bank Limited to the extent of US \$ 2,400,000 primarily secured against present and future movable fixed assets of the Company and book debts of the Company and also against investments held by the company in its subsidiary, TAKE Solutions Inc., to the extent of 9,575,000 equity shares. Corporate Guarantee has been given by subsidiary companies, TAKE Solutions Inc and Clear Orbit Inc as a collateral security.

Notes to the Abridged Financial Statements for the year ended March 31, 2010

1. Notes on accounts

Amounts in the abridged financial statements are presented in Rupees in thousands except as otherwise stated. The previous year figures have been regrouped/reclassified, wherever necessary, to conform to the current presentation.

The financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed by the Companies (Accounting Standards) Rules, 2006, the provisions of the Companies Act, 1956 and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied by the Company and are consistent with those used during the previous year.

(Refer to Schedule -12, 1 & 2 (k) in the Significant Accounting Policies and Notes to Accounts of the annual standalone financial statements).

2. Contingent liabilities

Amount in Rs. '000s

Particulars	Year ended 31-03-2010	Year ended 31-03-2009
Corporate guarantee given by the Company to one of its subsidiaries APA Engineering Private Limited	20,000	50,000
Claims against the Company, not acknowledged as debts [Net of amount paid to statutory authorities Rs.8,081]	27,876	18,039
Outstanding Bank Guarantee	14,000	NIL

Claims against the Company not acknowledged as debts is in respect to demand from Indian Income tax authorities for payment of additional tax of Rs. 278.76 lakhs (Rs. 180.39 Lakhs) upon completion of their tax review for the assessment years 2006-07 & 2007-08 respectively. The tax demand is mainly on account of disallowance of software product development expenses claimed by the company as revenue expenditure and instead allowing the same as a capital expenditure with consequential depreciation. The matter is pending before the Commissioner of Income tax (Appeals), Chennai.

On May 23, 2008 the company has received an order for the Assessment Year 2003-04 from Income Tax Appellate Tribunal (ITAT) disallowing the software product expenses claimed by the company as revenue expenditure and instead allowing the same as a capital expenditure with consequential depreciation and thereby reducing the benefit of carrying forward of losses by Rs. 159.14 lacs to the subsequent assessment years. However, no demand has been raised for the said assessment year. The company has filed an appeal with the Honorable High Court of Tamil Nadu against the order of ITAT. The management believes that the ultimate outcome of the proceeding will not have a material adverse effect on the company's financial position and results of operation and hence, no adjustment has been made to the financial statements for the year ended March 31, 2010

The Company is contesting the demands and the Management, including its tax advisors, believes that its position will likely be upheld in the appellate process. No tax expense has been accrued in the financial statements for the tax demand raised. The Management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of its operations.

(Refer to schedule - 12, 1, AS - 29 (a), (b), (c) in the Significant Accounting Policies and Notes to Accounts of the annual standalone financial statements).

3. Quantitative details

The Company is primarily engaged in the development and maintenance of computer software. The production and sale of such software cannot be expressed in any generic unit. Hence, it is not possible to give the quantitative details of sales and certain information as required under paragraphs 3,4C and 4D of part II of schedule VI to the Companies Act, 1956.

(Refer to schedule - 12, 2 (c) in the Significant Accounting Policies and Notes to Accounts of the annual standalone financial statements).
