

Driving successful outcomes for Clinical Trials by providing trial oversight and near-realtime insights

To ensure successful outcomes for your clinical study, you require a partner who understands the objectives of the study, enables data-led decision making, and provides trial oversight and incisive insights to keep the study on track.

With 350+ trials* across 20+ therapeutic areas, TAKE Solutions has partnered with over 100 sponsors to deliver successful clinical trials and clinical end-point studies. With deep domain expertise, experience managing global studies, a robust medical and scientific talent pool, a best-practice driven project management and governance model, and proven technologies, TAKE Solutions ensures timely adherence to study milestones. All of our clinical trials services are powered by **OneClinical** analytics, our source system and format agnostic, data driven, and ICH E6 R(2) compliant eClinical platform. Timely and informed decision-making is critical when faced with the challenges of steering your study to success and TAKE Solutions is here to help you with just that.

* since 2007

350+ Clinical Trials*

30+ Biologicals / Biosimilars studies

400+ Non-Interventional Studies

1,750+ Biostatistics & SAS
Programming Engagements

20+ Therapeutic Areas

4,000+ Sites

40+ Successful GCP/Non - GCP
Audits

240+ Validated Bioanalytical
Methods

80,000+ Patients & Volunteers

* since 2007

Increase the efficiency and effectiveness of your clinical studies

The operational success and the long term impact of a clinical trial depends on the ability to deliver high-quality data, quickly and cost-effectively, to enable timely and informed decision making by the study teams and sponsors. In addition, it has become essential to leverage trial data using analytics to improve decision-making capabilities. Quality by design and a risk-based approach are imperative to the success of clinical trials. An effective clinical trial requires a deep understanding of how to identify and mitigate risks from start to finish, how to identify the right parameters to drive trial progress and stay patient-centric, and how to set up trial endpoints to ensure a meaningful study.

TAKE Solutions leverages 30+ years of clinical trials experience and therapeutic area expertise, powered by the latest technology solutions, to deliver high-quality outcomes for your clinical studies. Our global workforce of domain experts is attuned to the latest industry trends, contributing significant subject matter expertise to develop appropriate clinical development strategies and guide a clinical study effectively. This is bolstered by our audit-ready infrastructure, skilled and experienced global delivery teams, and industry-specific technology platforms that ensure compliance and data integrity, enhance efficiencies, reduce costs, minimize risks and maximize patient safety.

Deep expertise across multiple therapeutic areas

Give your trial
the **TAKE**
Solutions
edge!

Consulting-Led

We leverage insights derived from our years of experience, domain expertise and proprietary industry networks to drive successful outcomes

Global

Our Project Management techniques are driven by industry best practices and we strongly believe in delivering results based on timelines, budgets, quality, and customer delight

Compliant

We ensure that our infrastructure, systems and processes are compliant with the most stringent regulatory standards with ISO 9001:2015 and ISO 27001:2013 certified facilities

Outcomes-Oriented

Our innovative, proprietary technology platform, **OneClinical**, enables effective and efficient, risk-managed, conduct of clinical trials

30+ years
of consulting
experience

Strategic Clinical Consulting

With a <10% probability of a Phase I drug getting to the market, successful clinical trials require a well-thought out strategic approach. Our global team of consultants apply their extensive expertise and knowledge to guide your clinical trials. Our consulting services include Clinical GCP Assessment, Data Unification, Inspection Readiness and Transformation to Risk-based Monitoring. With breakthrough insights gained through our industry network forums, models for success, and proven structured approaches, TAKE Solutions serves as your trusted strategic advisor.

30+ years
of experience in
Clinical Trials

Full-Service Clinical Trials

In the digital health revolution age, TAKE Solutions serves as an integrated development partner for faster and more cost-effective management of Phase II-IV trials. Right from study start-up, to conduct, to closure, we leverage our extensive experience to support your global clinical trials requirements. Our clinical trials services include feasibility, start-up, project management, traditional monitoring, centralized statistical monitoring driven by concepts of risk-based monitoring, data management and biostatistics, medical & PV services, and publishing and submissions. Powered by **OneClinical**, our eClinical platform with organic analytics and insights, our clinical trials services deliver successful outcomes while maintaining the highest quality standards and regulatory compliance.

15+ years of
experience in
Medical Imaging

Medical Imaging Services

Our Medical Imaging Services are either bundled into our full service or delivered as stand-alone and provide high quality outcomes that speed up your global Phase I - IV clinical trials. Our best-in-class tracking and evaluation of study images in all common modalities ensures high quality outcomes. Our services also include Site and CRA training. With proven expertise across therapeutic areas and modalities, we assist you with study planning, setup, conduct, and central independent review (including safety and efficacy for primary and secondary endpoints).

Conducted 7%
of all biosimilars
studies in India in 2017

Biosimilars Studies

To be first to file, biosimilars sponsors require a partner with advanced technical and regulatory expertise. We ensure that you gain market approval as efficiently as possible through lean protocol design and a focus on cost-efficiency. Our track record of meeting regulatory requirements ensures that study quality remain as high as innovator research.

20+
NIS conducted annually

Non-Interventional Studies (NIS)

Our dedicated NIS team works to increase efficiency, quickly acquire high quality data, and minimise the risks to study success and patient safety. Our services range from study setup, conduct, to closure, with a wide range of therapeutic areas covered, including Oncology and Neurology. We have conducted market surveys, pre-launch screenings, classical Non-Interventional Studies, post-authorisation safety studies, and post-authorisation effectiveness studies. Thus, we have helped collect prospective and retrospective data for marketed products; evaluated product effectiveness, patient compliance, patient/physician satisfaction, etc; identified, characterised and quantified safety hazards; confirmed safety profile of the product; and even measured the effectiveness of risk-management measures.

**Data Management
& SAS**
Certified Professionals
that you can lean on with
comfort and confidence

Clinical Data Services (CDS)

TAKE Solutions provides sponsors the flexibility of either full-service or stand-alone Clinical Data Services, per their individual requirements. We have deep domain expertise through decades of working with world leading pharmaceutical and biotech companies. Our highly qualified teams of data managers, and programmers include numerous SMEs with multiple years of experience in leading data management platforms and SAS Programming. Our services are backed by state-of-the-art technology, industry affiliations, years of experience, and qualified domain experts, who deliver cost-effective data management services to address increasingly complex clinical data sets while conforming to the regulatory requirements of CDISC submissions.

OneClinical

Our optimized eClinical and Analytics platform offers comprehensive trial oversight and enables informed decision making in a timely manner

Our intelligent, cloud-enabled, clinical analytics platform is proven to deliver near real time, high-quality data for delivering better insights and enabling proactive decision making, resulting in successful outcomes. Designed for, and delivered via, cloud, and in compliance with regulatory and data privacy requirements, our eClinical platform enables end to end clinical trial data management, data visualization, analytics, monitoring and submission services. Proven across a variety of global trials, the platform offers short setup time with low fixed costs, and provides global accessibility with near real-time data analytics and visualizations.

Powered by modern technology architectures, **OneClinical** provides quality by design, effective oversight of trials and actionable insights through comprehensive data visualization. **OneClinical** reduces source data verification through industry standards driven central, remote and risk based monitoring, and enables data review, query reconciliation and management through a configurable workflow based solution.

About TAKE Solutions

TAKE Solutions delivers domain-intensive services in Life Sciences. In the fast-growing Life Sciences space, TAKE offers clients a unique combination of full-service Clinical, Regulatory and Safety services backed by unique technology expertise. Our range of services span from clinical trials to regulatory submissions to post-marketing safety, all backed by insights derived through proprietary industry networks forums. With a team of leading Life Sciences experts, best-in-class systems and processes, and bespoke, industry-specific technology and analytics, TAKE delivers successful outcomes for clients. Our global roster of clients includes large and small innovator biopharmaceutical companies as well as generics manufacturers. With operations spread across North America, Europe, Asia, and South America, TAKE is a Public Company, listed in India on the Bombay Stock Exchange and the National Stock Exchange. Led by a team of industry stalwarts and domain experts, TAKE has been growing steadily with FY18 revenues touching INR 15,872 Mn, (USD 246 Mn).
