

Our Key Differentiators:

- Our deep domain expertise enables high quality deliverables, faster, at a competitive cost
- OneClinical**, our flexible and easy to use eClinical platform, promotes collaboration and delivers near real-time data that enables study leaders to make quick decisions
- Our partnering approach drives collaborative transformation of clinical studies to provide you with near real-time data oversight empowering faster decision making for enhanced patient safety and efficacy outcomes

Our Clinical Data Services (CDS) team delivers high-quality, timely and efficient services to meet all your clinical data services needs including Data Management, Biostatistics & SAS Programming, Data Standardization, Medical Writing, and submissions. As a CDISC Registered Solutions Provider, TAKE Solutions delivers high-quality data and ensures regulatory compliance. We leverage our domain, consulting and technology expertise to drive data driven clinical study transformation that leads to your desired outcomes.

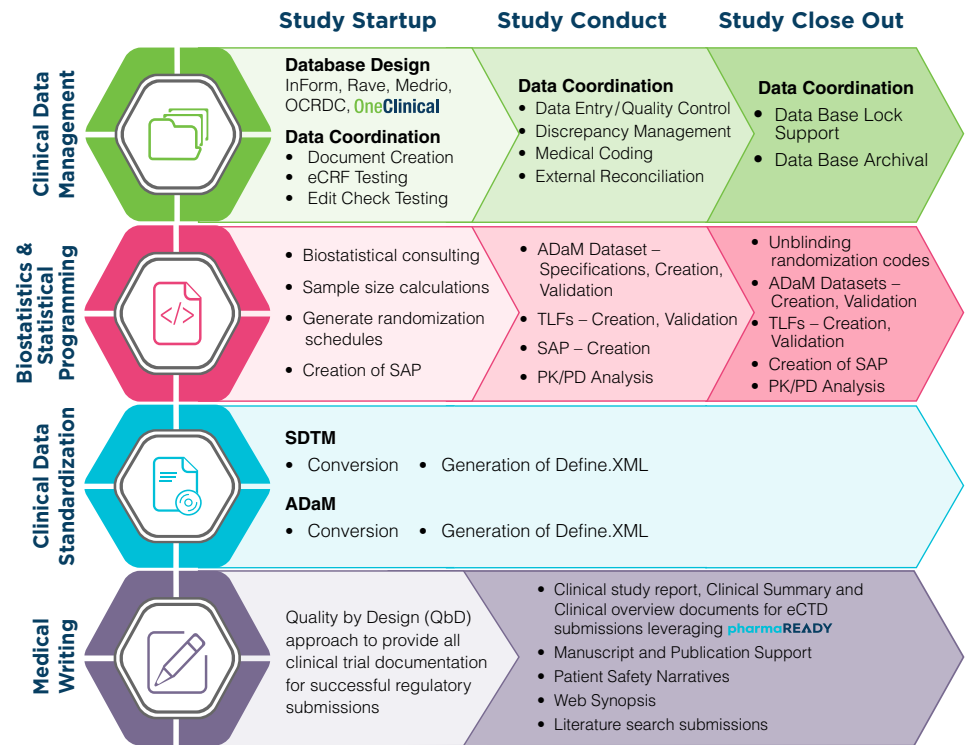

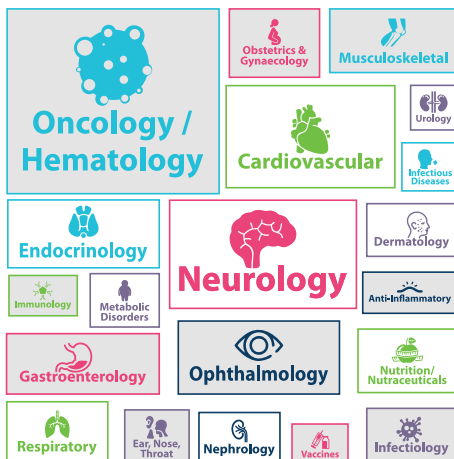

Our experienced medical writing team includes physicians at near shore locations with deep expertise across multiple therapeutic areas. We offer high quality medical writing services for Phase I to Phase III and post authorization studies.

We leverage our domain, consulting and technology expertise to deliver data driven clinical study transformation leading to your desired outcomes across quality, compliance, time and cost.

Service Offerings

We partner with you to deliver full clinical data services across CDM, Biostatistics, Statistical programming and Medical Writing through a flexible, scalable and global delivery model. Our teams can be onsite, offshore, near shore or a combination, depending on your short- and long-term objectives. We leverage our proven OneClinical platform or your chosen platform to ensure high quality and compliant deliverables with improved turnaround times and lower cost.
