

Regulatory Services

Process Outsourcing Enhanced by Technology

Knowledge process outsourcing and technology capabilities to support our customers across the entire value chain of drug and device regulatory environment.

Submissions & Report Publishing

TAKE Solutions offers document, report and submission level publishing for simple and complex submission applications including life cycle management. TAKE Solutions also provides invaluable subject matter expertise in evolving electronic submissions standards, health authority specific guidelines and processes.

Licence Maintenance

Licence maintenance activities for marketed products can be effort intensive and difficult to manage at optimal costs. TAKE Solutions provides continuous and cost effective support to Regulatory Operations in authoring and submitting variations, renewals and annual reports for marketed products across the world.

Labeling & Artwork Services

TAKE Solutions has more than a decade of experience in Labeling & Artwork management. We provide support to the industry's thought leadership in Labeling through LabelNet. We provide cost effective labeling document review, alignment with company core data sheets, labeling maintenance, coordination and proof reading expertise from our delivery centre in Chennai.

Regulatory Information Management

Regulatory information technology is often a range of point solutions that are not well integrated. The ability of these tools to work together plays a major role in the effective maintenance of Regulatory information, user confidence in the data integrity and the overall usefulness of the RIM system. Our experts can provide integrated RIM solutions or utilize our technology partnerships to meet your specific needs.

Regulatory Strategy and Support

Working with partners in the US and Europe, we provide high quality strategic regulatory advice throughout the lifecycle of your product. Advisory services range from regulatory requirements and strategy for early clinical studies to the optimal regulatory pathway to market for new products, generics and line extensions balancing speed-to-market, optimal market access and ultimate commercial success.

Why TAKE Solutions?

Expertise
